Michael,

I reviewed the proposed action to issue a 25-year land-use authorization to AT&T that would allow them to install a fiber optic cable overcrossing Lateral 24.2 near and east of the intersection between Ave 14 and Road 22 in Madera County, California. The cable would be connected onto existing PG&E poles on either side of Lateral 24.2 and would not require new poles or any ground disturbance. Work is expected to be completed within two days.

The proposed action does not have a potential to impact Indian Trust Assets. The nearest ITA is a Public Domain Allotment approximately 6 miles SW of the project location.
